7 wines

Producer

Bodega Estancia Mendoza was born in 2004 with the purpose of sharing the innate passion of small producers for their wines. It is part of Grupo Fecovita, founded in 1980 as a federation of wine producing co-operatives; currently, there are 29 members located in the key growing areas of Mendoza and their collaborative approach brings greater synergy in the grape growing and winemaking processes and in the ultimate marketing of their wines. The hot days and cool nights and bright spring and summer sunshine produce ideal conditions for the development of perfect grapes, and the ranges offer excellent quality and value in spades. In every bottle you will find the spirit and dedication of this family of small wine producers, sharing the essence of their lands and traditions.

Winemaker

Head Winemaker Marcelo Manoni graduated from the University of Don Bosco, one of Argentina's most prestigious viticulture institutions, with a degree in Oenology. He joined Estancia Mendoza after extensive experience in wineries across the Tupungato region of the Uco Valley.

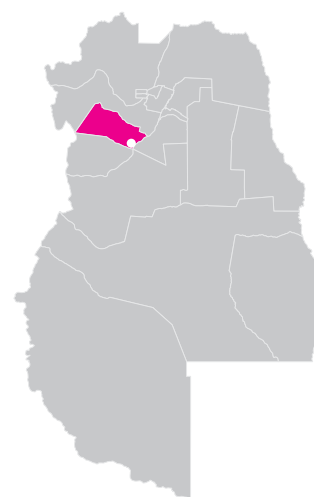

Export Winemaker Franco Michel is an Oenology graduate from Maza University. He joined the Estancia Mendoza team in 2023 after years of experience with wineries such as Trincherio in the Napa Valley and Peñaflor and Chandon in Mendoza.
