9 wines

Producer

Falasco Wines is brought to you by the fourth generation of 'Familia Falasco', winemakers in Mendoza since 1939. Building on their family history, their approach combines extensive experience with continuous research, innovation and evolving technology. Working with winemakers Alejandro Canovas and Pablo Sanchez, they are dedicated to creating unique, premium quality wines that prioritise elegance and fruit to fully express the character of their terroir. They have recently been recognised as sustainable by Bodegas de Argentina. This means that all vintages from 2024 will be certified sustainable.

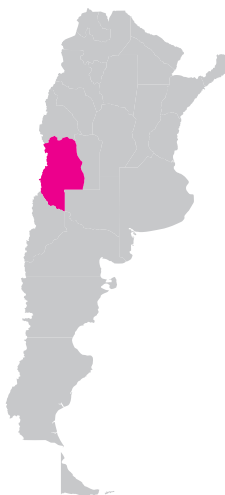

Winemaker

Pablo Sanchez trained at the Liceo Agrícola y Enológico Domingo Sarmiento and at the Faculty of Oenology of the Universidad Don Bosco, with a Master's in Oenology from the Universidad Juan Agustín Maza (UJAM). His career began at the historic Bodega Bombal and continued at Bodega Chandon Argentina, where he acquired his first experiences in the production of sparkling wines. After 12 years at Bodega Catena Zapata, with a particular focus on sparkling wines, he moved to Bodega Renacer as Head Winemaker before joined Familia Falasco in 2016 as winemaker of white and rosé wines

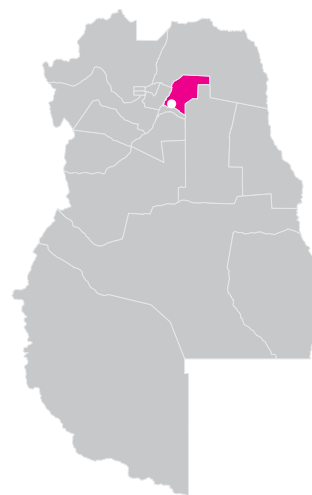

Matías Macías graduated from Universidad Juan Agustín Maza with a degree in Viticulture and Oenology, Matias then spent 15 years as a winemaker at prestigious Mendoza wineries including Bodega Renacer and Bodega Los Maitenes. His experience in producing high-end wines brought him to Falasco Wines in June 2025.
