Certifications

BDA Sustainable, LETIS

Condor Portfolio

12 wines

Producer

A firm favourite with our customers, and internationally recognised as one of the most talented winemakers in Argentina today, Karim Mussi continues to go from strength to strength, with leading wine critics falling over themselves to heap praise on these expressive and distinctive wines. Altocedro is a terroir-driven winery in La Consulta, a special spot in the Uco Valley. Alongside Altocedro, the Alandes project represents absolute freedom, a 'laissez-faire' winemaking philosophy that is in an extensive territory without borders. Abras, in Cafayete, reflects Karim's ongoing search for unique terroir expressions. It sources fruit from vines that are over 50 years old, planted on alluvial soils in the bottom of the valley for purer mineral and fruit expressions.

Winemaker

A third generation Lebanese immigrant, Karim pioneered his 'born and raised' approach to winemaking in the La Consulta IG of the Uco Valley. From the beginning, Karim has based his winemaking on three fundamental pillars: innovation, terroir awareness and vineyard sustainability. His obsession to find the most pure fruit, seeking for a unique identity through original old vine rootstocks, has led him to champion terroir-driven concepts across Argentina.

Locations

Maipu, Mendoza (Alandes),

La Consulta, Uco Valley, Mendoza (Altocedro)

and Cafayate, Salta (Abras).
